Terry L. Fossum- Bio

There are speakers who talk about overcoming obstacles, and those who have actually done it.

One is vastly more effective than the other.

Terry Fossum and his teammate winning Fox's *Kicking & Screaming*

Before he became a reality television star, **Terry L. Fossum** was born in the poorest city in the United States, surrounded by gangs and drugs. When he has 14 years old, he was staring down the barrel of an assault rifle in his own back alley. In high school, his father was killed. Before he died, a neighbor came up and informed him “none of your kids will ever grow up to be anything.”

Terry overcame great odds to be the Executive Officer for an entire Group of nuclear B-52 aircraft. Following that, he developed sales teams around the world and became a multimillion-dollar earner. With a passion for helping others, he further applies his leadership skill to philanthropic causes around the globe. An avid adventurer, he once again overcame great odds as the oldest competitor on the ultimate survival competition ‘Kicking & Screaming’ on Fox network, leading a complete novice, an online video gamer, through the perils of the Fijian jungle against fierce competitors, winning the entire show.

The author of four highly-lauded self-improvement books, Terry’s energetic, humorous and personable speaking style leaves audiences laughing, crying, and, most importantly, performing at a level they may never have thought possible.

LIFT OFF!

60-Minute Keynote

HAVE YOU EVER REACHED FOR A GOAL AND FAILED? EVER WONDER WHY?

As the Space Shuttle is on the launch pad, all three main engines are firing at full power, and yet it sits there, unmoving. No matter how much energy it may have, how much potential, it goes nowhere.

Why?

Because eight relatively tiny bolts are holding it back.

Then, at T minus 0, explosive charges go off, blowing the bolts and allowing the space shuttle to achieve Lift Off; to soar to great heights, and achieve what it was meant to achieve.

Each of us has eight bolts that hold us back as well, and until we identify and overcome them, we can never perform at our peak potential.

In this energy-charged keynote, Terry skillfully and humorously addresses the first three bolts, helping audiences overcome their fears, stop making excuses, and embrace failure as a welcomed component of Success.

Throughout the experience, Terry weaves in his personal story of overcoming great odds to becoming a military leader, a self-made millionaire and winning Fox's ultimate survival challenge, Kicking & Screaming on prime-time television, and his brother becoming a U.S. Astronaut. Includes footage from Terry's show, and a personal message from the International Space Station.

Terry's presentation was not just inspiring but chock full of incredibly useful nuggets on how to create a plan that will enable us to succeed at whatever our goal may be. His Oxcart Technique is powerful, but only if we use it. I will use it!"

Terry Fossum has been a speaker at several different events over the last 5 years for One Team Global. Thousands of our distributors and guests have listened to Terry's dynamic presentations. Terry's delivery hits with impact and is powerful. He punctuates his key points in such a way that the audience takes away the key points of his presentations.

He is great for a small group of 10 to 15 or for audiences over 1,000. I have seen him connect with all of them.

Thank you so much Terry Fossum for coming and talking to us; you are truly inspiring to listen to. I just want you to know I read your book in about two days as I couldn't put it down. Afterwards, I made my success and failure scenarios and my action plan. LOL. I only hope to be as inspiring as you someday. Thank you again!
